APM TERMINALS BAHRAIN AT A GLANCE

APM Terminals Bahrain B.S.C., the operator of the state-of-the-art Khalifa Bin Salman Port (KBSP), is a public listed company incorporated in the Kingdom of Bahrain.

Headquartered in The Hague, Netherlands, APM Terminals specializes in providing customer-oriented solutions that are built around the evolving needs of the customers. The services are designed to ensure customers receive technologically competent, seamless, efficient experience by reducing complexity for them when purchasing different services in the market.

Our 76 terminals around the world are part of our international network, which APM Terminals maintains on its own or with another operating partner. This means that we can meet the demand of 250 marine vessels per day and a total of 40 million units annually.

Khalifa Bin Salman Port (“KBSP”) is the only general commercial port facility in the Kingdom of Bahrain which connects

Bahrain to the world through its highly efficient operations and modern infrastructure, empowering businesses to fulfill consumer needs.

Located on 900,000 square metres of reclaimed land, the port has 1,800 metre quay which includes a container terminal served by four 61 metres post-panamax cranes, as well as general cargo, RO-RO and passenger facilities. Passenger facility includes a dedicated passenger terminal that is capable of handling cruise and ferry calls.

KBSP is one of the multi-purpose deep water facilities located in the Middle East. Through its diverse service offering, KBSP is capable of handling the following:

Containers – Used in the import and export of packaged cargo carried by container ships. Container dimensions range from 20, 40, 45 foot and are measured in Twenty Foot Equivalent Units (TEU). These can be broken down into two broad sub-categories:

- ◆ Local – Export Import of containers with origin or destination being local; and
- ◆ Transshipment – a container which is transferred from one ship to another at some point during the journey without leaving the port where the transfer is taking place, is said to be transhipped

General Cargo – Consists typically of commodity goods bulk or break-bulk including livestock, steel, sugar, construction materials and RO-RO, passengers etc.

By means of its multi-purpose and modern port facilities, APM Terminals Bahrain plays a key role in facilitating external trade and marine services through Container Terminal activities, General Cargo, RoRo, Cruise and related port services, thus contributing significantly to Bahrain’s economic growth.

CORE PURPOSE

APM Terminals Bahrain B.S.C. is a company established for managing and operating the public port of Kingdom of Bahrain in a safe, efficient, customer minded and profitable manner and to be known and recognized as such.

Our Why

"Caring and Creating possibilities for everyone by lifting Global trade "

The What: Our Vision Statement

"Khalifa Bin Salman port to be the most valued and largest single contributor to Bahrain's economy"

The How: Our Mission Statement

To be the most productive and efficient port, where doing business is simple, transparent, integrated, and fast, offering flexible logistic service solutions for all types of cargo, with great service delivered by exceptional people

In line with APM Terminals' group philosophy of "Lifting global trade", and the Maersk Group's vision "to become the global integrator of container logistics aiming to connect and simplify our customers' supply chain", the Company strives to provide the right infrastructure and expertise to realise this vision by focusing on the following four core areas:

- ◆ **Services** – KBSP is designed to provide multiport facilities to users in the Northern Gulf. Customers include shipping lines, import agencies, export agencies, private jetties, military beneficial cargo owners and traders. Services are provided with world class productivity, excellent infrastructure, operational scalability and flexibility in the range of services provided to customers. The Company strives to constantly improve the quality and range of services provided to customers. The Company actively collaborates with the Ports and Maritime Affairs ("PMA") and the Economic Development Board of Bahrain to facilitate new investments into Bahrain, attracted by the capabilities of the KBSP's facilities and Company's service offering;
- ◆ **Customers** – The Company strives to continuously enhance its customers' experience by providing high levels of (1) products and services, (2) operational performance, (3) personal contact points and (4) customer responsiveness. The Company has put in place a dedicated customer services team to address customer requirements and periodically survey customer satisfaction. Towards this goal, the Company has implemented the ISO 9001:2015 quality assurance system throughout the organisation;
- ◆ **Sustainability** – The Company aims to provide the safest possible environment for the people and goods within its facility with a minimum adverse impact to the environment; and
- ◆ **Employees** – The Company actively invests in hiring, training and developing the best talent in order to ensure that employees are provided due platform to develop their skills.

INTERNAL AUDITOR

The Board has appointed BDO Consulting WLL as Company's Internal Auditor. BDO Bahrain was established in 1980. BDO is one of the leading accounting and advisory firms in Bahrain. A thorough internal audit plan was prepared by BDO for financial year 2021, which was approved by ARCC. Internal Auditor conducted audits in accordance with the approved audit plan throughout the year and submitted reports to ARCC for review, approval and relevant actions.

CORPORATE COMMUNICATIONS

Company conducts all communications with its stakeholders in a professional, honest, transparent, understandable, accurate and timely manner. Main communications channels include an annual report, Company website, and regular regulatory announcements in the appropriate local media.

RELATED PARTY TRANSACTIONS AND CONFLICT OF INTEREST

The Company is party to a number of agreements and arrangements with its shareholders and other related parties. The Company has in place and acts in accordance with a robust Corporate Governance Manual which governs related party transactions. Standard operations procedures and approvals are followed for all contracts that are entered into, to seek and ensure that there are no conflicts or preferences given to any specific entity.

The Directors make every practicable effort to arrange their personal and business affairs to avoid a conflict of interest situation with the Company. The Directors are required to disclose their interests in other entities or activities to the NRCG committee on an annual basis and inform the Company of any conflict of interest whenever it arises and abstain from voting on any related subject matter.

The related party transaction details are disclosed in Note 22 to the Financial Statements.

The Company has entered into the following related party transactions in the financial year 2021.

Moller Maersk of its major shareholder (APM Terminals B.V.). David Skov, Soren Sjostrand Jakobsen and Jesper Kjaedegaard being appointed by APM Terminals B.V., did not participate in the voting of the resolution. The Company, as of 31 December 2021, has deposited ~BHD 25.51M with A.P. Moller Maersk A/S. The deposits are excess cash which are deposited as part of the treasury advice and instructions received from APM Terminals Management B.V., as part of the treasury advisory and execution services provided by it under the technical services agreement and direct agreement with the Company. These deposits offer interest rate benchmarked to the USD Libor along with foreign currency swap contracts with an additional premium such that the Company earns an annualized Net All-in-Yield of ~0.25% over the deposit rate offered by one of the international banks.

Compliance with HC Module and Corporate Governance Code

The Company is in compliance with the Corporate Governance Code and HC Module except for the following:

- ❖ HC- 1.4.6 and HC 1.4.8 of HC Module and Principle 1 First (a) (3) of Corporate Governance Code stipulates that the chairman of the Board of Directors should be an independent director. David Skov, an executive director is the elected chairman of the Board. This is to ensure that APM Terminals will be able to deliver its obligations under the direct agreement, it has entered with the Government for management and operations of KBSP and the support that APM Terminals is required to provide. However, this does not compromise high standards of corporate governance as the Company follows strict policies to manage conflict of interest in Board decisions.

MANAGEMENT ANALYSIS AND PRINCIPAL RISKS

On 8 November 2006, the Company signed a 25-year Concession with the Government of Bahrain (“Concession”) with numerous rights as listed in the Concession. Due to continuation of pandemic and various other global business factors FY 2021 faced certain principal risks and uncertainties which includes the following:

KEY PERFORMANCE INDICATORS (KPIs)

The Company is required by clause 13 of the Concession to adhere to certain minimum KPI’s. There are four KPI targets set in relation to (i) vessel working rate (ii) crane rate (iii) labour rate and (iv) throughput per berth meter (each as defined and described in the Concession). The Company has exceeded the KPI targets consistently in respect of vessel working rates, crane rates and labour rates. However, the Company has not met its ‘throughput per berth meter’ KPI target in the years 2014 to 2018.

If Company fails to meet one or more of the KPIs for a period of 4 years or any further years thereafter, except as a result of force majeure, then the Nominated Percentage element of the Revenue Charge (i.e. an element in the calculation of the Revenue Charge payable by the Company to the Government in consideration for the rights granted by the Government to the Company under the Concession) set out in the Concession will be increased by an additional 1% above the level set out in the Concession for such fourth year failure and by a further 1% for each further year’s failure thereafter. Such additional charges will continue until Company produces a KPI report demonstrating compliance with the relevant KPIs in respect of the applicable year. This additional charge was applied in 2017 and 2018. However, the Company has successfully achieved all KPIs for the financial year 2019 and 2020 and accordingly no additional charge was applied in 2020 in relation to the KPI targets. The Company has not met its ‘throughput per berth meter’ KPI target in 2021.

Failure to meet KPIs for a period of 5 consecutive years would also constitute the Company’s event of default under clause 33.1 of the Concession which may lead to a right of termination of the Concession on the part of the Government should it chose to do so.

TRANSHIPMENT TARGET

One of the requirements of the Concession is that the Company must meet certain annual transshipment volumes. According to the Concession, in the event that the transshipment target for the year 2015 or any later year shows that the average level of transshipment at KBSP, over the previous four consecutive years, has failed to meet 60% of the transshipment targets set in the Concession relevant to those four years (taken on an average basis over the relevant four year period) then the Government shall have the right, but not the obligation, to terminate the Concession as an event of default by the Company on 30 days’ notice. The right of the Government to terminate does not apply in the event that Company can demonstrate to the Government’s satisfaction both:

- ◆ that it has taken all reasonable steps (including expenditure of time and money) to market KBSP so as to secure transshipment business for KBSP during the four consecutive years in question; and
- ◆ that, notwithstanding the efforts of Company, external economic or other factors beyond Company’s and APM Terminals control have prevented Company from achieving the required level of transshipment volume at KBSP.

Since commercial operations began at KBSP, Company has failed to meet the transshipment volumes required under the Concession and is therefore at risk that the Government may terminate the Concession. However, the Ministry of Transportation and Telecommunication issued a letter to the Company, dated 28 June 2015, in which the Ministry stated that it shall not apply the termination right in the Concession so long as the Company continues its efforts to reach the required transshipment level and the Ministry is comfortable with the Company’s efforts.

COMPLIANCE RISK

Noncompliance with laws, regulations, rules, prescribed practices or contractual agreements can result in reputational loss, limited business opportunities and cessation of operations. The Company ensures adherence to all applicable regulations, including regulations prescribed by CBB and Bahrain Bourse. Besides, Company internal policies and code of conduct are in line with international business standards ensuring that best practices are adopted and implemented by the Company.

RISK OF OUTBREAK OF EPIDEMIC, PANDEMIC OR CONTAGIOUS DISEASE

Outbreaks of epidemic, pandemic, or contagious diseases, such as the recent novel coronavirus can result in lockdowns, lower revenue, lesser volumes, higher costs, labour shortages, decreases in productivity, supply chain disruptions, operational disruptions and changes in the macroeconomic environment. The extent to which such epidemic, pandemic or contagious diseases could impacts our operations and business will depend on future developments, which are highly uncertain and cannot be predicted with confidence, including the duration of the outbreak, severity and the actions taken by the government to contain such disease, among others.

CORPORATE SOCIAL RESPONSIBILITY

APM Terminals aims to be the leader in its sector. At the same time, it recognizes that leadership and success go beyond the bottom line to incorporate the principles of sustainable business practice.

The group also measures its progress according to its safety record, its environmental performance, and its contribution towards uplifting its people and their communities

APM Terminals believes that its contribution to society extends beyond the port and extends to the ongoing development of the local community.

We have a regular program of social engagement, including outreach programs for disadvantaged children, placement schemes for young students, and contribution of our time and other resources to help the local communities develop.

The total amount spent on Corporate Social Responsibility for the year 2021 is ~BHD 28,454 in addition to time devoted by members of the Company. The Corporate Social Responsibility Policy of the Company sets out the Company's commitment to continuing its efforts to incorporate sustainability into its business process. The Company's approach to corporate social responsibility is led by the executive management, headed by the CEO.

APM Terminals Bahrain is committed to integrating its own community-based activities as well as supporting those of its employees.

CORPORATE SOCIAL RESPONSIBILITY INITIATIVES

Socio-Economic Development

Social responsibility is one of our main sustainability pillars. We recognize the importance of being a good corporate citizen, contributing to local communities and making a difference to their wellbeing. Equally, we believe in improving people’s quality of life and thus investing in the future of our country.

APM Terminals Bahrain is committed to ensuring that its socio-economic investments have a sustainable impact on the local community. APM Terminals has sponsored and participated in various charity events that were all for a very good cause. Employees are also encouraged to take part in such events and give it their best with the goal of making it to the top of the winners list.

Acceleration Program: Training and Development

The Leadership path of the Acceleration program has been launched in the Month of November. It aims to ensure world-class real-world experiential learning opportunity, preparing selected talents for high impact visible roles in the Industry and develop the next generation Bahraini corporate leaders in the Logistics and Maritime Sector. It is also part of our contribution to Bahrain's Economic Vision 2030 and serves as a CSR program, giving priority to talents who have been made unemployed in the last 2 years since the pandemic hit the globe.

The Acceleration Program consists of 2 main paths:

The Leadership Program

The leadership Path consists of the following features:

- ◆ 8 Bahraini Talents will undergo an extensive screening process based on aptitude, educational qualifications, and relevant work experiences
- ◆ The selected Talents will be extended an employment contract for the duration of 24 months during which they will undergo a hybrid experiential learning journey consisting of On-The-Job trainings, classroom and virtual leadership and organizational development programs and short-term assignments where they will be eligible for global rotations at APM Terminals facilities
- ◆ The selected Talents will undergo professional training and participate in high impact projects

The Maritime Youth Program

- ◆ 3 Talents will be sponsored on a full scholarship for the duration of 3 years to study Nautical Science and undergo 12 to 18 months of sea-time apprenticeship on a Maersk Vessel through Collaboration with Polytechnic University Bahrain, Polytechnic Singapore, and Maersk
- ◆ The selection process includes recommendation from the university, entry tests in English, Math and Science, and a panel interview consisting of representatives from APM Terminals Bahrain and Ministry of Transportation & Telecommunications

Internship Program

APM Terminals Bahrain, has endeavoured towards supporting students by providing either hands-on experience or support in best practice sharing in the Logistics domain.

APM Terminals Bahrain have launched an enrollment program where students could apply for internship through the company website. Additionally, Virtual Internship Program has been launched where APM Terminals will support students with projects while ensuring their safety at the highest priority by undergoing the internship virtually. Notwithstanding COVID19 disruptions, 11 interns from Bahrain Polytechnic have successfully completed their internship at APM Terminals Bahrain across departments and two interns were offered employment contracts.

52nd ABDULLA ALI KANOO GOLF CUP TOURNAMENT

APMT Bahrain took part in sponsoring the 52nd Abdulla Ali Kanoo Golf Cup Tournament.

Breast Cancer Awareness Session

A breast cancer awareness campaign was designed and presented to APM Terminals Bahrain Male and Females in separate sessions. The sessions covered various topics such as breast cancer awareness, methods of early detection, correction of misconceptions and methods of healthy lifestyle.

Environment – Go Green

APM Terminals organized its Go Green initiative. This initiative focused on understanding how APM Terminals can reduce its carbon footprint, hearing from its employees their ideas in how we can safeguard the environment, planting more plants inside the port, in addition organized a clean-up that covered the area in the vicinity of the port and the approach roads leading to it.
