

With reference to the Terminal Tariff, valid as from 1 October 2016 until 31 December 2016 and applicable to all business through APM Terminals Gothenburg.

The following changes apply to the tariff for export containers only. These changes apply from Monday 7nd November 2016 until Sunday 27th November 2016, both days inclusive.

Export and **transshipment** goods have 5 working days free of Port Storage. Calculation of Port Storage time starts on the day container is gate in to the terminal and ends the day before container is loaded on a vessel.

Example: Container is gate in on Tuesday and loaded on Wednesday the week after. Port Storage will be charged for 1 day, i.e. Tuesday the week after gate in. In this case Tuesday, Wednesday, Thursday, Friday and Monday free (Saturday and Sunday are not working days, also free) as well as the day of loading Wednesday is also free.

Temperature controlled units, units containing dangerous goods, and OOG units have the same free Port Storage terms as described above. Important: Additional storage surcharges apply to this type of units as per Port Tariff (see Storage Surcharges).

Following storage tariffs are applicable outside Free time:

Storage ISO units

After free period (per unit and calendar day)	<i>day 1-3</i>	<i>day 4-7</i>	<i>day 8-</i>
Storage ISO unit ≤ 20 ft	0 SEK	99 SEK	149 SEK
ISO units > 20 ft will be charged double the tariff rate.
